## PRESIDENT'S REPORT

---

Winspear Business Library  
1-18 Business Building  
Edmonton, Alta. T6G 2R6

To the SHAREHOLDERS:

During the past year our Company has participated in the drilling of four wells and has acquired a 10% interest in 1,920 acres of freehold leases in Southeast Saskatchewan. Two of the wells, (1-28-9-1 W2M at Whitebear, SK) and (12-34-4-34 W1M at Hastings, SK) are now on production and a third well, (16-26-4-2 W2M at Alameda, SK) shows some potential and will undergo further testing. The other well was drilled near Warner, Alberta and was abandoned because of water problems.

Revenue from the new wells will begin early in 1988. Our share of recoverable reserves from this recent drilling is estimated to be 31,000 barrels. Potential is high for finding additional reserve on these leases. The next well in our program will be drilled in the second quarter, 1988.

Recent drilling developments in the Black Butte area have caused us to delay the drilling of a well until our geological studies have been updated.

Because of the mild weather, our gas production at Hanna has been lower than usual this winter and will result in lower revenues.

We anticipate that our participation in Southeast Saskatchewan will gradually increase our oil reserves and revenue base.

Yours Sincerely,

A handwritten signature in blue ink, appearing to read 'A. Stuart Cameron', is written over a horizontal line.

A. Stuart Cameron

## AUDITOR'S REPORT

---

To the Shareholders of  
North Continental Energy Ltd.

We have examined the balance sheet of North Continental Energy Ltd. as at December 31, 1987 and the statements of income and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the company as at December 31, 1987 and the results of its operations and changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

### 1. ACCOUNTING POLICIES

North Continental Energy Ltd. is a public company which produces natural gas and oil and is incorporated under the Alberta Business Corporations Act. These financial statements are prepared in accordance with generally accepted accounting principles. The more significant accounting policies are:

#### Petroleum and Natural Gas Operations

The company capitalized the acquisition and exploration costs of both producing and non-producing leases and rights and changes such costs to earnings if the leases and rights are subsequently surrendered. The cost of drilling productive wells are capitalized and the cost of non-productive wells are charged to earnings when determined to be dry. The costs of producing wells including exploration, development and equipment thereon are amortized using the unit of production method based upon estimated quantities of oil and gas reserves.

#### Property and Equipment

Property and equipment are recorded at cost. Depreciation is calculated using the straight line method at the following rates:

|                   |    |
|-------------------|----|
| Dehydration Plant | 5% |
|-------------------|----|

#### Investments

Investments are recorded at cost.

#### Income Taxes

The Company records income taxes on the tax allocation basis. Under this method, income taxes relating to earnings currently recognized for accounting purposes but deferred for income tax purposes are fully provided for.

## NOTES TO FINANCIAL STATEMENTS

---

December 31, 1987

4. DEFERRED REVENUE

Deferred gas revenue consists of amounts received under take-or-pay gas contracts and will be recognized as revenue when the related product is delivered to the purchaser.

5. DEFERRED INCOME TAXES

The deferred income taxes so provided result primarily from timing differences in the recording of depreciation and depletion of property and equipment for accounting purposes versus various allowances taken for income tax purposes.

6. SHARE CAPITAL
